RE: Request for Information Pursuant to Section 104 of CERCLA for IWI Inc. Site,
Summit, Illinois

Dear Mrs. Bensing:

I am in receipt of your letter dated September 9, 2003 requesting information from
EXTRA newspapers concerning the above-mentioned matter.

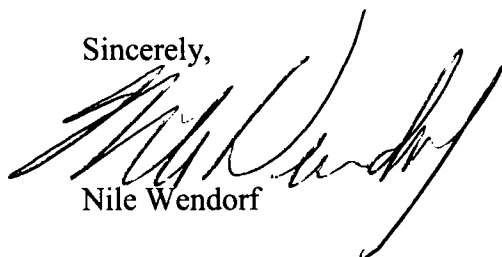

EXTRA is a publisher of weekly community newspapers. Another company prints our
newspaper so we do not own or use any chemicals or paper commonly associated with
newspaper printing processes. To our knowledge we have never used any hazardous
materials beyond what is found in a normal office environment such as laser printer
toners and items like that. Therefore, it is impossible for us to answer any of the
questions in the questionnaire attached to your request for information.

I also examined our accounting records and we have no mention of a vendor called IWI
in Summit, Illinois. To the best of my knowledge, we have never had a relationship of
any kind with this company.

It is conceivable that this firm did run a help wanted advertisement in our newspaper at
some time. Unfortunately, we do not keep individual records of help-wanted advertisers
beyond one year because of the volume of classified advertisements we process. EXTRA
is a bi-lingual community newspaper serving the Hispanic community in Chicago. We
do accept many advertisements from firms searching for manual laborers. My
speculation is that this firm may have used our newspaper in order to source employees.

At this point, I will consider this response as sufficient for your needs. If you can provide
us with any more specific information as to what types of information we may have or
how you believe we may have a relationship to IWI, we will promptly respond and
cooperate with your inquiry.

Sincerely,

Nile Wendorf
